

Amendments to the Specification:

Please add the following new paragraph after the first paragraph on page 1:

BACKGROUND OF THE INVENTION

Please add the following new paragraph after the fourth paragraph on page 1:

SUMMARY OF THE INVENTION

Please add the following new paragraph after the third paragraph on page 3:

BRIEF DESCRIPTION OF THE DRAWINGS

Please add the following new paragraph after the fourth paragraph on page 3:

DETAILED DESCRIPTION OF THE DRAWINGS

Please replace the paragraph on page 5, lines 1-8 with the following amended paragraph:

At least one of the panels 4A may be substantially absorptive to electromagnetic radiation [[.]] , as indicated by the arrow associated with the

panel 4A. The absorption of some of the incident electromagnetic radiation reduces the electromagnetic radiation reflected by the array, thereby reducing the electromagnetic radiation reflected in the direction of the receiving equipment.

Please replace the paragraph on page 5, lines 12-14 with the following amended paragraph:

Different reflection characteristics can be provided for by altering the design of the panels 4. The reflective surface of each panel may be flat (Figures 1 and 3) or curved (not shown) (Figure 2).

Please add the following new paragraph after the second on page 6 :

Although modifications and changes may be suggested by those skilled in the art, it is the intention of the inventor to embody within the patent warranted hereon all changes and modifications as reasonably and properly come within the scope of his contribution to the art.
